TABLE A	NATIONAL ADVANTAGES [11.1.2]
	<b>FRENCH EMPIRE “Persuasion by Force”</b> When the FR player wishes to initiate a card trade, the player asked by FR must accept an offered trade if they possess a FR card. If more than one FR card is available, the asked player has the choice of which of their FR cards to trade. Non-French players have a -1 to their card’s play value in moving any Issue on or from the FR Track during debate or negotiation. Up to twice per Diplomacy Phase, the FR player can debate an Issue first, pre-empting the other Major Powers when declaring a debate. This can be done even after another player declares a debate, but not after the debate effect has been executed. A FR National Card must be used by France for a pre-emptive debate.
	<b>BRITAIN “Arsenal of the Coalition”</b> In any Diplomacy Phase tiebreak situation involving Britain, the BR player wins. If Britain is not directly involved in the tie, the BR player determines which of the tied Major Powers wins.
	<b>RUSSIAN EMPIRE “Imperial Staff”</b> For the Initial Issues Selection Wager [11.2] by the RU player, a RU or Neutral card has its value increased by +1. If AU or BR win the Wager, the RU player, upon seeing the result, may substitute a higher value RU Character card (which will include this +1 Advantage) by replacing the previously bid card to assure winning the Wager’s initial Issue. The previously bid card returns to RU’s hand.
	<b>AUSTRIA “Diplomacy First and Foremost”</b> AU or Neutral cards used by the AU player in a debate have +1 value, up to a maximum of 7.
