# How to use Vassal module (1.1)

Rome Must Fall

Components

All game components are available on the board.

White dice can be converted into red dice with the right mouse button (**'Alt + C'** keyboard shortcut)

Red dice can be converted into white dice with the right mouse button (**'Alt + C'** keyboard shortcut)

Each time you click on the individual boxes, the corresponding "scratch" / "+1" / "reserve cube" appears or disappears.

Right click to make reserve cubes or Roman abilities unavailable/hidden.

Roll the dice

To roll the dice, simply select the dice you want to roll and then either:
- click on the 'Roll' button in the top left-hand corner

- right-click on the selected dice and click on 'Roll' in the menu

- press the '**Ctrl + R**' keyboard shortcut

Gather the dice

To gather the dice, simply click on the 'Gather dice' button in the top left-hand corner.
